

To: the Clerk of the Board  
From: Jeanne Mello  
Subj: The Delta Tunnels

Please do not make dual conveyance also known as Delta Tunnel Plan the promoted option for the master plan for the San Francisco Bay-Delta. Please perform due diligence and review factors such as cost-benefit ratios. Federal scientists have confirmed this plan will devastate water quality. The federal permits required for this project have not been approved, why go on record as in favor of a plan that will face opposition for many years to come.

Respectfully,  
Jeanne Mello
